INFORMATION FOR ORDERING ACTIVITIES

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ On-line shopping service (www.gsaadvantage.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.gsa.gov/fas) contains information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1a. Awarded Special Item Numbers (SINS)

Risk Mitigation Consulting, Inc.

Terms and Conditions

GSA multiple award schedule contracts are awarded in accordance with the provisions of Federal Acquisition Regulation Part 12—Acquisition of Commercial Items. To the maximum extent practicable, GSA multiple award schedule contracts include only those clauses and terms and conditions, either required to implement provisions of law or executive orders applicable to the acquisition of commercial items, or determined to be consistent with customary commercial practice. Ordering agencies may incorporate provisions in their task orders that are essential to their specific requirements (i.e., security, hazardous material handling, key personnel, etc.), provided they do not conflict with the terms and conditions of the contract. These provisions, when required, must be included in the individual task order, and any costs necessary to comply with the provision(s) will be included in the task order proposal price estimate, unless otherwise prohibited by law. The terms and conditions of Risk Mitigation Consulting’s Schedule 84 contract are maintained current as required by our GSA Schedule contract.

RMC Corporate Experience – Delivering Value-added Services

RMC was founded to improve the security of military personnel, assets, and ensuring successful completion of the missions by the U.S. military organizations. RMC's leadership and employees have many years of experience supporting complex missions and designing innovative solutions to the contemporary threats and challenges in protecting our military assets. Since 2011, RMC has supported the Department of the Navy (DON) and US Marine Corps (USMC) in their efforts to synchronize mission assurance protection-related programs, including Anti-terrorism; Critical Infrastructure Protection; Continuity of Operations; Emergency Management; Information Assurance; Physical Security; Law Enforcement, Cybersecurity and Energy and Infrastructure security.

A key objective of our efforts is the development of an effective and efficient framework that accomplishes the integration of the activities, functions, and operational capabilities of protection related programs and development of appropriate risk assessment and risk management processes. RMC has provided its services at DON and USMC Installations worldwide.

The Mission Assurance program support requires RMC's personnel to possess broad functional and technical expertise across multiple skills and disciplines. We have been instrumental in assessing military installations worldwide to identify vulnerabilities in the protection and systems at those installations. Our cybersecurity, information technology, and telecommunications personnel have assessed and implemented security for industrial control systems, networks, and communications at military installations worldwide. RMC has recommended actions to mitigate identified vulnerabilities resulting in the increased ability for DON and USMC installations and units to accomplish their missions.

RMC has past performance and demonstrated expertise in the following areas:

Risk Management Services

- Interdependency Analysis
- Mission Analysis
- Risk Assessments
- Continuity of Operations Planning
- Emergency Management

Law Enforcement and Physical Security Program Support

- Capability Based Risk Assessments
- Mission Readiness Analysis
- Capability Program Development

Facility Security Assessment and Planning

- Nodal Analysis
- Energy Security and Resiliency Analysis
- Water System Vulnerability analysis
- Facility Condition Assessments
- Utility Security and Resiliency Analysis
- Utility System Condition and Capacity

Critical Infrastructure Protection Analysis

- Critical Asset Risk Assessments
- CIP Strategies Development
- Vulnerability Analysis and Mitigation Planning
